# walk-behind power trowels

## ▶▶ Walk-behind POWER TROWELS

Walk-behind power trowels remain an essential tool for the professional finisher, which is why Ian Dickie are proud to carry a range that is internationally proven to be robust, reliable and manageable. Boasting a host of features and a perfect combination of weight, balance and blade span, our walk behind units and accessories provide an all-round performance that is unequalled.

### Features:

- tri-tube lateral welded handle for strength.
- all control cables run inside handle tubes for maximum protection
- body contoured handle bar for control & safety
- dual stop controls – deadman & centrifugal
- chromed handle and guard ring for easy cleaning
- precision engineered gearbox and spider assembly for trouble free long life
- spider arms fully adjustable to maintain exact blade balance and eliminate machine wobble
- lifting hook fitted standard
- full options of blades and float pans – finish, combination, float shoes, plastic blades.
