Lighting Plant

The L-12 Nighthawk light tower is engineered to provide dependable lighting for a wide range of applications, from construction sites, industrial locations and special events.

Fully adjustable metal halide lamps

Four 1000 watt lamps provide maximum illumination and are controlled by individual circuit breakers for versatility.

Engine power

Powered by a Deutz 1800rpm, liquid cooled diesel engine.

Panel light

Automatic panel light illuminates the control panel and all functions.

Convenience receptacles

Externally mounted for accessibility, ideal for supplying power for hand tools and small equipment.

30 Gallon fuel tank

Provides up to 64 hours of run time at 3 quarter load

Outstanding wind stability

Up to 65mph with outriggers and jackstands fully deployed

Trailer design

Provides smooth highway towing as well as being robust enough to handle rugged job sites

Warranty

1 year for the machine and 3000hrs for the Deutz diesel engine
