Measuring Success by Customer Satisfaction

walk behind floor saw

Ian Dickie CS450ID Walk Behind Floor Saw

The CS450ID offers a dynamic combination of durability, ease of operation and precision cutting performance. The high rigidity box frame enables straight cuts while at the same time extending the service life of both saw and blade. The cutting depth can be easily adjusted via the crank mechanism and the cutting blade effortlessly swapped by lifting the hinged blade guard. The CS450ID also comes with a throttle control as well as adjustable operator handles, so whether your job requires the cutting of floors, driveways, car-parks, roadways, old/new concrete or asphalt, the CS450ID will consistently deliver outstanding performance.

Features:

- Robust, well designed and easy to use
- Cutting depth indicator
- Cutting depth raise/lower assist system
- Engine and bladeshaft mounting system reduces vibrations and increases cutting performance
- Adjustable, ergonomic handles
- Throttle control
- Hinged blade guard for easy changing of blades

CS450ID
